

HOW SAFE IS YOUR DRINKING WATER ?

JUARA

R.O. Water Purifier

...For those who knows the difference

Trusted Quality
Since 1992

Fully Automatic Countertop Reverse Osmosis With
Built-In Hot/Room Temperature Drinking Water System

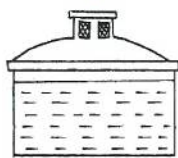

More than **5 Million** people worldwide die each year because of water related diseases*

ENVIRONMENTAL POLLUTION & TAP WATER

Contaminated underground / river water

Water treatment plant

Reservoir

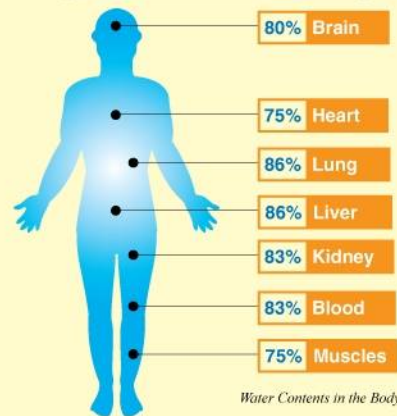

Water Tank

We Care & Concern About:

- ~ Unpleasant Odor, Bad Taste
- ~ Bacteria / Virus
- ~ Sediment, Dirt, Rust
- ~ Organic, Inorganic Compounds
- ~ Harmful Pollutions

Health Tips

Water Contents in the Body.

Functions of water :-

1. Assist in the digestion of food.
2. Dissolve food nutrients.
3. Act as a medium in the transportation of nutrients.
4. Promote circulation of body fluids including the blood to nourish the entire body.
5. Act as lubricant within body tissues.
6. Help to eliminate accumulated body wastes.
7. Regulate body temperature.
8. Assist in maintaining the balance of electrolytes in the body.

Drink at least 2 liters of pure water a day.

The Partner of Quality Living

R.O. System is recognised worldwide

1. Recycling waste water for drinking in the space shuttle by NASA of USA
2. The desalination of sea water for naval vessels.
3. Used in KIDNEY DIALYSIS MACHINES by medical experts.
4. For medical purposes in hospitals, laboratories and pharmaceutical plants.
5. Production of quality water for beverages & food industries.

JUARA water purifier is designed for safety and durability. Its high performance RO system complete with **NSF certified filters** originated from **USA** has the highest contaminant removal rate. It is adapted for office and home use to produce drinking water achieving a purity of up to 99.99%, a level at which all dissolved contaminants, bacteria and virus have been effectively removed, giving you and your loved ones pure and safe quality drinking water for a string of beauty & health benefits.

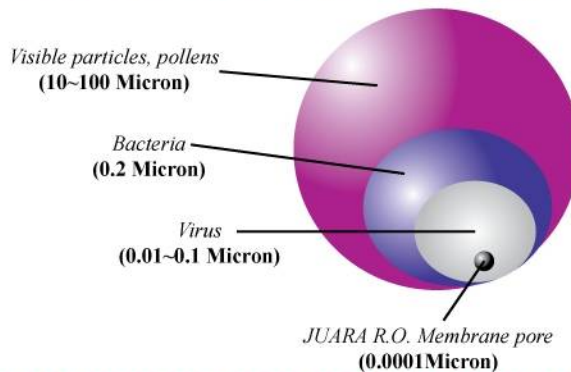

With over 17 years of technological development in water purification system, JUARA RO water purifier is evidently the most reputable system trusted by many healthy families with concerns for the quality of their water.

JUARA RO Water Purifier...For people who knows the difference.

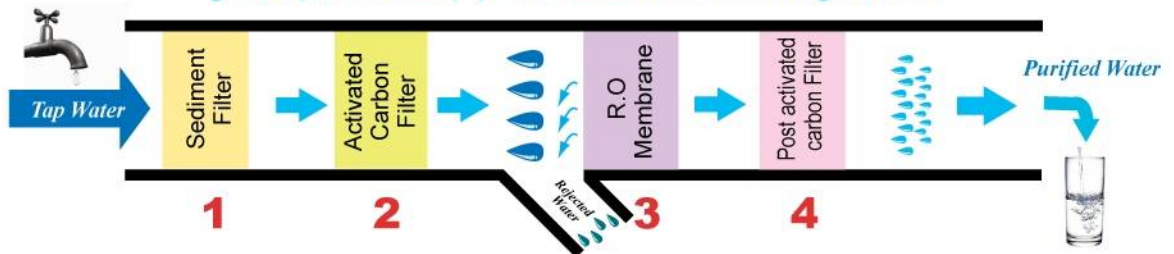

Do You Know?

Comparative Sizes - RO Membrane Pore, Virus & Bacteria

High Performance RO System using NSF Certified filters made in USA
gives your family pure and fresh drinking water

1 Sediment Filter

Certified NSF 5 micron sediment filter removes large particles of suspended matter such as dirt, sand, hair, clay, pipe scale, etc.

2 Activated Carbon Filter
